## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (II) Rannual energy officiency under average climate conditions for low-temperature applications (III) Rannual energy consumption under average climate conditions for low-temperature applications (QHE) Rannual energy consumption under average climate conditions for low-temperature applications (QHE) Rannual energy consumption under average climate conditions for low-temperature applications (QHE) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under wareer climate conditions for medium-temperature applications (P rated) Rated heating output under wareer climate conditions for medium-temperature applications (P rated) Rated heating output under wareer climate conditions for low-temperature applications (P rated) Rated heating output under wareer climate conditions for low-temperature applications (P rated) Rated heating output under wareer climate conditions for low-temperature applications (P rated) Rated heating output under wareer climate conditions for low-temperature ap			WPL-A 10 HK 400 Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications   A++			205851
medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications (P rated)  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s  Annual energy consumption under average climate conditions for low-temperature applications (R)s  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Special measures  Special measures  Special measures  Asset heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warer climate conditions for low-temperature applications (P rated)  Rated heating output under warer climate conditions for low-temperature applications (P rated)  Rated heating output under warer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature application	Manufacturer		STIEBEL ELTRON
Instrumentature applications   Rated heating output under average climate conditions for medium-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for medium-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low-temperature applications (OHE)   Seasonal space heating output under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating output under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)   Seasonal space heating e			A++
temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for inow-temperature applications (I)s) Annual energy consumption under average climate conditions for inow-temperature applications (I)s) Annual energy consumption under average climate conditions for inow-temperature applications (I)s) Annual energy consumption under average climate conditions for medium-temperature applications (I)s) Sound power level, indoor Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low-temperature applications (I) rated) Rated heating output under colder climate conditions for low-temperature applications (I) rated) Rated heating output under colder climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated)  Rated heating output under warmer climate conditions for low-temperature applications (I) rated)  Rated heating output under warmer climate conditions for low-temperature applications (I) rated)  Rated heating output under warmer climate conditions for low-temperature applications (I) rated)  Rated heating output under warmer climate conditions for low-temperature applications (I) rated of low-temp			A++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Sound power level, indoor  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions assembly, installation or maintenance of the room heater, see the installation instructions (I) temperature applications (I) and the properature applications (I	- · ·	kW	12
conditions for medium-temperature applications (R)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions assembly, installation or maintenance of the room heater, see the installation instructions (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under awarmer climate conditions for low-temperature applications (P rated)  Rated heating output under awarmer climate conditions for low-temperature applications (P rated)  Rated heating output under awarmer applications (P las)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P las)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P las)  Annual energy consumption under colder climate conditions for low-temperature applications (PH		kW	11
conditions for low-temperature applications (f)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (PIS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (PIS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (PIS)  Annual energy consumption u		%	135
medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Special measures  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Reasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  A		%	169
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Sound put under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating e		kWh/a	6969
Option for operation only at off-peak times  Special measures  Aror all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions heater, see the installation instructions (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Annual energy consumption under colder climate conditions for well-dependent experimental expensions (NHE)  Annual energy consumption under colder climate conditions for well-dependent expensions (NHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)		kWh/a	5368
Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions.  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Rs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	0
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Option for operation only at off-peak times		<u> </u>
Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)	Special measures		For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions
temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for kWh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> '	kW	15
temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Manual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> '	kW	15
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for kWh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> '	kW	10
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%136Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%159Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%200Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12237Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a3330Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3330Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2662	<u> </u>	kW	10
conditions for low-temperature applications (ηs)76Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		%	118
conditions for medium-temperature applications (ηs)6Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%200Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12237Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a10273Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3330Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2662		%	136
conditions for low-temperature applications (\$\Pi\$s)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  2662		%	159
Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  2662	, , ,	%	200
temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  2662	3, 1	kWh/a	12237
