Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, modelum-temperature applications Energy efficiency class, space heating under average climate conditions, investment applications Rated heating output under average climate conditions for medium-temperature applications (Parted) Rated heating output under average climate conditions for low-temperature applications (Parted) Rated heating output under average climate conditions for low-temperature applications (Parted) Seasonal space heating energy efficiency under average climate conditions for modum-temperature applications (Parted) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Parted) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Parted) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Parted) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space place the average climate conditions for low-temperature applications (OHE) Sound power level, indoor Spacial measures Alle beim Zusammenbau, der installation oder low-temperature applications (Parted) Spacial measures Alle beim Zusammenbau, der installation oder low-temperature applications (Parted) Rated heating output under colder climate conditions for low-temperature applications (Parted) Rated heating output under colder climate conditions for low-temperature applications (Parted) Rated heating output under warmer climate conditions for low-temperature applications (Parted) Rated heating output under warmer climate conditions for low-temperature applications (Parted) Rated heating output under warmer climate conditions for low-temperature applications (Parted) Rated heating output under warmer climate conditions for low-temperature applications (Parted) Seasonal space heating energy efficiency under cold			HPA-O 10.2 Plus HC 400
Space heating energy efficiency class under average climate conditions, medium-temperature applications A++++ fow-temperature applications At the provided of the provided o			207433
medium-temperature applications Energy efficiency class, space heating under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Special measures Alle beim Zusammenbau, der Installation onder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation-under Montageanweisung Alle beim Zusammenbau, der Installation-under Montageanweisung Propherature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under ware climate conditions for low-temperature applications (P rated) Rated heating output under ware climate conditions for low-temperature applications (P rated) Rated heating output under ware climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficie	Manufacturer		STIEBEL ELTRON
Investmentature applications Part			A+++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Special measures Alle beim Zusammenbau, der installation oder Wartung des Raumheizgerätes zu treffenden Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Sehe installation under Montageanweisung Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for medium- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Annual energy consumption under colder climate conditions for low- temperature applications (OHE) Annual energy consumption under warmer climate conditions for low- temperature appl			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Alle beim Zusammenbau, der installation odder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe installation under Montageanweisung Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe installation- und Montageanweisung Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe installation- under Montageanweisung Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe installation- under temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps) Annual energy consumption under colder climate conditio		kW	12
conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (P ateu) Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation - und Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation - und Montageanweisung Montageanweisung varient en applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (N)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (N)s Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer clima	· · · · · · · · · · · · · · · · · · ·	kW	12
conditions for low-temperature applications (Rs) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation - und Montageanweisung Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under w		%	157
medium-temperature applications (QHE) Annual energy consumption under warrae climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: siehe Installation- und Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P limate con		%	195
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffendem besonderen Vorkehrungen: Siehe Installation - und Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (R) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate cond	3, 1	kWh/a	5951
Option for operation only at off-peak times Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 11 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 11 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 6 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 6 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 6 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 6 Rated heating output under warmer climate conditions for rated kW 6 Rated heating output under warmer climate conditions for low-temperature applications (Ps) % 143 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s % 175 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps) % 180 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps		kWh/a	4855
Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (Ns) Rated heating output under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (NHE) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)	Sound power level, indoor	dB(A)	0
Special measures Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Wontageanweisung Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 11 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 11 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 6 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 6 Seasonal space heating output under warmer climate conditions for low-temperature applications (P rated) kW 6 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)s % 143 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P)s % 180 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s % 180 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P)s % 180 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P)s % 248 Annual energy consumption under colder climate con	Option for operation only at off-peak times		
temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Montageanweisung
temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	9 .	kW	11
temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for kWh/a Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	9 .	kW	11
temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for kWh/a Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	6
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		kW	6
conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for kWh/a 1792 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		%	143
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		%	175
conditions for low-temperature applications (ηs) % 248 Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) kWh/a 7499 Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 6274 Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) kWh/a 1792 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 1262		%	180
Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 1792		%	248
