

**Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)**

|                                                                                                                                         |   | <b>WPL 25 IK Set</b> |
|-----------------------------------------------------------------------------------------------------------------------------------------|---|----------------------|
|                                                                                                                                         |   | 231887               |
| Manufacturer                                                                                                                            |   | STIEBEL ELTRON       |
| Seasonal space heating energy efficiency under average climate conditions for low-temperature applications ( $\eta_s$ )                 | % | 175                  |
| Temperature control class                                                                                                               |   | VI                   |
| Contribution of temperature control to space heating energy efficiency                                                                  | % | 4                    |
| Space heating energy efficiency of package under average climate conditions                                                             |   | -                    |
| Space heating energy efficiency of package under colder climate conditions                                                              |   | -                    |
| Space heating energy efficiency of package under warmer climate conditions                                                              |   | -                    |
| Value of differential between space heating energy efficiency under average climate conditions and that under colder climate conditions | % | 7                    |
| Value of differential between space heating energy efficiency under warmer climate conditions and that under average climate conditions | % | 14                   |
| Energy efficiency class, space heating under average climate conditions, low-temperature applications (A+++ -> D)                       |   | A++                  |
| Space heating energy efficiency class of package under average climate conditions (A+++ -> D)                                           |   | -                    |
