| Seasonal room heating efficiency in moderate climates for average temperature applications ( $\eta_s$ )                                   | % | 116                    |
| Temperature controller class  |   | VI                     |
| Contribution of temperature controller to room heating energy efficiency  | % | 4                      |
| Room heating energy efficiency of composite system under moderate climatic conditions   | % | 120                    |
| Room heating energy efficiency of composite system under colder climatic conditions   | % | 109                    |
| Room heating energy efficiency of composite system under warmer climatic conditions   | % | 143                    |
| Value of differential between room heating energy efficiency under moderate climatic conditions and that under colder climatic conditions | % | 8                      |
| Value of differential between room heating energy efficiency under warmer climatic conditions and that under moderate climatic conditions | % | 26                     |
| Energy efficiency class for central heating in moderate climates for medium temperature applications                                      |   | A+                     |
| Room heating energy efficiency class of composite system under moderate climatic conditions   |   | A+                     |
