| Seasonal room heating efficiency in moderate climates for average temperature applications $(\eta s)$                                     | % | 158                  |
| Contribution of temperature controller to room heating energy efficiency  | % | 4                    |
| Room heating energy efficiency of composite system under moderate climatic conditions   | % | 161                  |
| Room heating energy efficiency of composite system under colder climatic conditions   | % | 166.9                |
| Room heating energy efficiency of composite system under warmer climatic conditions   | % | 160.6                |
| Value of differential between room heating energy efficiency under moderate climatic conditions and that under colder climatic conditions | % | 6                    |
| Value of differential between room heating energy efficiency under warmer climatic conditions and that under moderate climatic conditions | % | 0.4                  |
| Energy efficiency class for central heating in moderate climates for medium temperature applications                                      |   | A+++                 |
| Room heating energy efficiency class of composite system under moderate climatic conditions   |   | A+++                 |
| Energy efficiency category for DHW heating under moderate climatic conditions   |   | A                    |
| Load profile  |   | XL                   |
