## Required details about room heater and combi heater with heat pump to regulation (EU) no. 813/2013 & 811/2013

|  |              | HPA-O 4 CS Plus compact D Set S |
|--|--------------|---------------------------------|
|  |              | 238997                          |
| Manufacturer   |              | STIEBEL ELTRON                  |
| Heat source  |              | Outside air                     |
| Low temperature heat pump  |              | <u> </u>                        |
| With booster heater  |              | X                               |
| Combi boiler with heat pump  | *            | X                               |
| Rated heating output in colder climates for average temperature applications (Prated)                            | kW           | 5                               |
| Rated heating output in moderate climates for average temperature applications (Prated)                          | kW           | 4                               |
| Rated heating output in warmer climates for average temperature applications (Prated)                            | kW           | 3                               |
| Tj = -7 °C heating output, partial load range in colder climates (Pdh)   | kW           | 3.24                            |
| $T_j = -7$ °C heating output, partial load range under moderate climatic conditions (Pdh)                        | kW           | 3.4                             |
| Tj = 2 °C heating output, partial load range in colder climates (Pdh)  | kW           | 1.9                             |
| Tj = 2 °C heating output, partial load range under moderate climatic conditions (Pdh)                            | kW           | 2                               |
| Tj = 2 °C heating output, partial load range in warmer climates (Pdh)  | kW           | 3.9                             |
| Tj = 7 °C heating output, partial load range in colder climates (Pdh)  | kW           | 2.4                             |
| Tj = 7 °C heating output, partial load range under moderate climatic conditions (Pdh)                            | kW           | 1.3                             |
| Tj = 7 °C heating output, partial load range in warmer climates (Pdh)  | kW           | 1.2                             |
| Tj = 12 °C heating output, partial load range in colder climates (Pdh)   | kW           | 1.5                             |
| Tj = 12 °C heating output, partial load range under moderate climatic conditions (Pdh)                           | kW           | 1.5                             |
| Tj = 12 °C heating output, partial load range in warmer climates (Pdh)   | kW           | 1.5                             |
| Tj = dual mode temperature in colder climates (Pdh)  | kW           | 3.8                             |
| Tj = dual mode temperature under moderate climatic conditions (Pdh)  | kW           | 3                               |
| Tj = dual mode temperature in warmer climates (Pdh)  | kW           | 4.0                             |
| Tj = operating temperature limit in colder climates (Pdh)  | kW           | 3.2                             |
| Tj = operating temperature limit under moderate climatic conditions (Pdh)  | kW           | 3.4                             |
| Tj = operating temperature limit in warmer climates (Pdh)  | kW           | 3.9                             |
| For air/water heat pumps:Tj = -15 °C (if TOL< -20 °C) (Pdh)  | kW           | 0                               |
| Dual mode temperature in colder climates (Tbiv)  | °C           | -10                             |
| Dual mode temperature in moderate climates (Tbiv)  | °C           |                                 |
| Dual mode temperature in warmer climates (Tbiv)  Seasonal room heating efficiency in colder climates for average |              | 105                             |
| temperature applications (ηs)  Seasonal room heating efficiency in moderate climates for average                 |              | 116                             |
| temperature applications (ηs) Seasonal room heating efficiency in warmer climates for average                    |              | 139                             |
| temperature applications (ηs)  |              |                                 |
| Tj = -7 °C COP, partial load range in colder climates (COPd)   | <del> </del> | 2.28                            |
| Tj = -7 °C COP, partial load range under moderate climatic conditions $(COPd)$                                   |              | 2.05                            |
| Tj = 2 °C COP, partial load range in colder climates (COPd)  |              | 3.40                            |
| Tj = 2 °C COP, partial load range under moderate climatic conditions (COPd)                                      |              | 2.94                            |
| Tj = 2 °C COP, partial load range in warmer climates (COPd)  |              | 2.13                            |
| Tj = 7 °C COP, partial load range in colder climates (COPd)  |              | 4.66                            |
| Tj = 7 °C COP, partial load range under moderate climatic conditions (COPd)                                      |              | 4.13                            |
| Tj = 7 °C COP, partial load range in warmer climates (COPd)  |              | 3.25                            |
| Tj = 12 °C COP, partial load range in colder climates (COPd)   |              | 6.65                            |
| Tj = 12 °C COP, partial load range under moderate climatic conditions (COPd)                                     |              | 5.97                            |
| Tj = 12 °C COP, partial load range in warmer climates (COPd)   |              | 5.15                            |
| Tj = dual mode temperature in colder climates (COPd)   |              | 2.09                            |
| Tj = dual mode temperature under moderate climatic conditions (COPd)   |              | 2.15                            |

| Tj = dual mode temperature in warmer climates (COPd)                                      |       | 2.13  |
|---|-------|---|
| Tj = operating temperature limit in colder climates (COPd)                                |       | 2.28  |
| Tj = operating temperature limit under moderate climatic conditions (COPd)                |       | 2.05  |
| Tj = operating temperature limit in warmer climates (COPd)                                |       | 2.13  |
| For air/water heat pumps:Tj= -15°C (if TOL< -20 °C) (COPd)                                |       | 0.00  |
| Operating temperature limit in colder climates (TOL)                                      | °C    | -15   |
| Operating temperature limit in moderate climates (TOL)                                    | °C    | -5  |
| Operating temperature limit in warmer climates (TOL)                                      | °C    | 2   |
| Heating water operating temperature limit (WTOL)  | °C    | 60  |
| Power consumption, OFF state (Poff)   | W     | 17  |
| Power consumption, thermostat OFF state (PTO)   | W     | 30  |
| Standby power consumption (PSB)   | W     | 17  |
| Power consumption, operating state, with crankcase heating (PCK)                          | W     | 5   |
| Booster heater heating output in moderate climate (Psup)                                  | kW    | 3.6   |
| Type of energy supply, booster heater   |       | electric  |
| Power control   |       | variable  |
| Sound power level external  | dB(A) | 52  |
| Annual energy consumption in colder climates for average temperature applications (QHE)   | kWh/a | 4884  |
| Annual energy consumption in moderate climates for average temperature applications (QHE) | kWh/a | 2618  |
| Annual energy consumption in warmer climates for average temperature applications (QHE)   | kWh/a | 1467  |
| Flow rate, heat source side   | m³/h  | 1300  |
| Load profile  |       | L   |
| Daily power consumption (Qelec)   | kWh   | 4.45  |
| Annual power consumption in colder climates (AEC)   | kWh/a | 949   |
| Annual power consumption in moderate climates (AEC)                                       | kWh/a | 905   |
| Annual power consumption in warmer climates (AEC)   | kWh/a | 717   |
| Energy efficiency for DHW heating (ηwh) under moderate climatic conditions                | %     | 113   |
| Special measures  |       | For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions |
