|   |  | <b>LWZ-W 200 Premium</b> |
|---|--|--------------------------|
|   |  | 205081                   |
| Manufacturer  |  | STIEBEL ELTRON           |
| Specific energy consumption under colder climate conditions with control subject to on-site requirements        |  | -                        |
| Specific energy consumption under average climate conditions with control subject to on-site requirements       |  | -                        |
| Specific energy consumption under warmer climate conditions with control subject to on-site requirements        |  | -                        |
| Energy efficiency class under colder climate conditions with control subject to on-site requirements (A+ -> G)  |  | -                        |
| Energy efficiency class under average climate conditions with control subject to on-site requirements (A+ -> G) |  | -                        |
| Energy efficiency class under warmer climate conditions with control subject to on-site requirements (A+ -> G)  |  | -                        |
| Ventilation unit type   |  | -                        |
| Drive type  |  | -                        |
| Heat recovery type  |  | -                        |
| Rate of temperature change for heat recovery  |  | -                        |
| Max. air flow rate  |  | -                        |
| Max. power consumption  |  | -                        |
| Sound power level LWA   |  | -                        |
| Reference air flow rate   |  | -                        |
| Reference pressure differential   |  | -                        |
| Specific power input  |  | -                        |
| Control factor, control subject to on-site requirements   |  | -                        |
| Internal air leakage quota  |  | -                        |
| External air leakage quota  |  | -                        |
| Mixing ratio  |  | -                        |
| Sensitivity to pressure fluctuations  |  | -                        |
| Airtightness between indoors and outdoors   |  | -                        |
| Annual power consumption under colder climate conditions with control subject to on-site requirements           |  | -                        |
| Annual power consumption under average climate conditions with control subject to on-site requirements          |  | -                        |
| Annual power consumption under warmer climate conditions with control subject to on-site requirements           |  | -                        |
| Annual heating savings under colder climate conditions with control subject to on-site requirements             |  | -                        |
| Annual heating savings under average climate conditions with control subject to on-site requirements            |  | -                        |
| Annual heating savings under warmer climate conditions with control subject to on-site requirements             |  | -                        |
