

## Product datasheet: Room heater to regulation (EU) no. 811/2013 / (S.I. 2019 No. 539 / Schedule 2)

|  |       | WPL 09 IKCS classic compact plus set |
|--|-------|--------------------------------------|
|  |       | 236732                               |
| Manufacturer   |       | STIEBEL ELTRON                       |
| Energy efficiency class for central heating in moderate climates for<br>medium temperature applications            |       | A++                                  |
| Energy efficiency class for central heating in moderate climates for low temperature applications                  |       | A+++                                 |
| Rated heating output in moderate climates for average temperature<br>applications (Prated)                         | kW    | 4                                    |
| Rated heating output in moderate climates for low temperature applications (Prated)                                | kW    | 5                                    |
| Seasonal room heating efficiency in moderate climates for average temperature applications ( $\Pi$ s)              | %     | 128                                  |
| Seasonal room heating efficiency in moderate climates for low temperature applications ( $\ensuremath{\Pi}$ s)     | %     | 175                                  |
| Annual energy consumption in moderate climates for average temperature applications (QHE)                          | kWh/a | 2837                                 |
| Annual energy consumption in moderate climates for low temperature applications (QHE)                              | kWh/a | 2178                                 |
| Sound power level internal   | dB(A) | 45                                   |
| Sound power level external   | dB(A) | 32                                   |
| Rated heating output in colder climates for average temperature applications (Prated)                              | kW    | 7                                    |
| Rated heating output in colder climates for low temperature applications (Prated)                                  | kW    | 7                                    |
| Rated heating output in warmer climates for average temperature applications (Prated)                              | kW    | 2                                    |
| Rated heating output in warmer climates for low temperature applications (Prated)                                  | kW    | 3                                    |
| Seasonal room heating efficiency in colder climates for average temperature applications ( $\ensuremath{\Pi}$ s)   | %     | 116                                  |
| Seasonal room heating efficiency in colder climates for low temperature applications ( $\ensuremath{\Pi}$ s)       | %     | 150                                  |
| Seasonal room heating efficiency in warmer climates for average temperature applications ( $\ensuremath{\Pi}$ s)   | %     | 136                                  |
| Seasonal room heating efficiency in warmer climates for low temperature applications ( $\ensuremath{\Pi}\xspaces)$ | %     | 198                                  |
| Annual energy consumption in colder climates for average temperature applications (QHE)                            | kWh/a | 5547                                 |
| Annual energy consumption in colder climates for low temperature applications (QHE)                                | kWh/a | 4382                                 |
| Annual energy consumption in warmer climates for average temperature applications (QHE)                            | kWh/a | 923                                  |
| Annual energy consumption in warmer climates for low temperature applications (QHE)                                | kWh/a | 698                                  |

## 

Product datasheet: Composite system consisting of room heater and temperature controller to regulation (EU) no. 811/2013 / (S.I. 2019 No. 539 / Schedule 2)

|  |   | WPL 09 IKCS classic compact plus set |
|--|---|--------------------------------------|
|  |   | 236732                               |
| Manufacturer   |   | STIEBEL ELTRON                       |
| Seasonal room heating efficiency in moderate climates for average temperature applications ( $\ensuremath{\Pi}$ s)                           | % | 128                                  |
| Temperature controller class   |   | VI                                   |
| Contribution of temperature controller to room heating energy efficiency   | % | 4                                    |
| Room heating energy efficiency of composite system under moderate<br>climatic conditions   | % | 132                                  |
| Room heating energy efficiency of composite system under colder<br>climatic conditions   | % | 120                                  |
| Room heating energy efficiency of composite system under warmer<br>climatic conditions   | % | 140                                  |
| Value of differential between room heating energy efficiency under moderate climatic conditions and that under colder climatic conditions    | % | 12                                   |
| Value of differential between room heating energy efficiency under<br>warmer climatic conditions and that under moderate climatic conditions | % | 8                                    |
| Energy efficiency class for central heating in moderate climates for<br>medium temperature applications                                      |   | A++                                  |
| Room heating energy efficiency class of composite system under<br>moderate climatic conditions   |   | A++                                  |

## Required details about room heater and combi heater with heat pump to regulation (EU) no. 813/2013 & 811/2013

|  |       | WPL 09 IKCS classic compact plus set |
|--|-------|--------------------------------------|
|  |       | 236732                               |
| Manufacturer   |       | STIEBEL ELTRON                       |
| Heat source  |       | Outside air                          |
| Low temperature heat pump  |       |                                      |
| Combi boiler with heat pump  |       | X                                    |
| Rated heating output in colder climates for average temperature applications (Prated)                    | kW    | 7                                    |
| Rated heating output in moderate climates for average temperature<br>applications (Prated)               | kW    | 4                                    |
| Rated heating output in warmer climates for average temperature applications (Prated)                    | kW    | 2                                    |
| $T_j = -7$ °C heating output, partial load range under moderate climatic conditions (Pdh)                | kW    | 3.9                                  |
| Tj = 2 °C heating output, partial load range under moderate climatic conditions (Pdh)                    | kW    | 2.5                                  |
| Tj = 7 °C heating output, partial load range under moderate climatic conditions (Pdh)                    | kW    | 2                                    |
| Tj = 12  °C heating output, partial load range under moderate climatic conditions (Pdh)                  | kW    | 2                                    |
| Ti = dual mode temperature under moderate climatic conditions (Pdh)                                      | kW    | 3.9                                  |
| Tj = operating temperature limit under moderate climatic conditions (Pdh)                                | kW    | 3.9                                  |
| For air/water heat pumps:Tj = -15 °C (if TOL< -20 °C) (Pdh)  | kW    | 0                                    |
| Dual mode temperature in moderate climates (Tbiv)  | °C    | -7                                   |
| Seasonal room heating efficiency in colder climates for average temperature applications (Πs)            | %     | 116                                  |
| Seasonal room heating efficiency in moderate climates for average temperature applications ( $\Gamma$ s) | %     | 128                                  |
| Seasonal room heating efficiency in warmer climates for average temperature applications ( $\Gamma$ s)   | %     | 136                                  |
| Tj = -7 °C COP, partial load range under moderate climatic conditions (COPd)                             |       | 2.22                                 |
| Tj = 2 °C COP, partial load range under moderate climatic conditions<br>(COPd)                           |       | 3.1                                  |
| Tj = 7 °C COP, partial load range under moderate climatic conditions<br>(COPd)                           |       | 4.53                                 |
| Tj = 12  °C COP, partial load range under moderate climatic conditions (COPd)                            | ,     | 6,44                                 |
| Tj = dual mode temperature under moderate climatic conditions (COPd)                                     |       | 2.22                                 |
| Tj = operating temperature limit under moderate climatic conditions (COPd)                               |       | 2.22                                 |
| For air/water heat pumps:Tj= -15°C (if TOL< -20 °C) (COPd)   |       | 0                                    |
| Operating temperature limit in moderate climates (TOL)   | °C    | -7                                   |
| Heating water operating temperature limit (WTOL)   | °C    | 60                                   |
| Power consumption, OFF state (Poff)  | W     | 21                                   |
| Power consumption, thermostat OFF state (PTO)  | W     | 56                                   |
| Standby power consumption (PSB)  | W     | 56                                   |
| Power consumption, operating state, with crankcase heating (PCK)   | W     | 26                                   |
| Booster heater heating output in moderate climate (Psup)   | kW    | 1.54                                 |
| Type of energy supply, booster heater  |       | electric                             |
| Power control  |       | variable                             |
| Sound power level external   | dB(A) | 32                                   |
| Sound power level internal   | dB(A) | 45                                   |
| Annual energy consumption in colder climates for average temperature applications (QHE)                  | kWh/a | 5547                                 |
| Annual energy consumption in moderate climates for average temperature applications (QHE)                | kWh/a | 2837                                 |
| Annual energy consumption in warmer climates for average temperature applications (QHE)                  | kWh/a | 923                                  |
| Flow rate, heat source side  | m³/h  | 1240                                 |
